-

INTERNSHIP

Software Developer intern – Prodigy InfoTech

Worked on front-end technologies including HTML, CSS, and JavaScript to build responsive web pages. Gained hands-on experience with Java programming, SQL, and web development concepts. Collaborated with the team to understand software development practices and complete assigned tasks. Improved problem-solving, debugging, and code optimization skills through practical projects.

PROJECTS

Online Examination & Result Management System

- How it works: Students log in, attend online exams, submit answers, and the system automatically evaluates them and generates results.
- Tools used: Python, Django, HTML, CSS, JavaScript, Bootstrap, MySQL, VS Code.

College Event Management System

- How it works: Admin/coordinators create and manage college events, while students can view events, register, and track their participation.
 - Tools used: Python, Django, HTML, CSS, JavaScript, Bootstrap, MySQL, VS Code.
-
